Description

This is a guide for installing Plex Media Server on Arch Linux.

Prepare the Environment

- Make sure the system is up to date:

```
pacman -Syu
```

Install yaourt

- Install [yaourt](#)

Install Plex Media Server

- Install Plex Media Server from the AUR:

```
yaourt plex-media-server
```

- Start and enable Plex Media Server at boot:

```
systemctl enable plexmediaserver.service  
systemctl start plexmediaserver.service
```

- Navigate to <http://plex.example.com:32400/web/> to finish the setup.
