Target version:	Magento 1.9	Spent time:	1.00 hour

Description

This is a simple guide on how I setup FedEx shipping on Magento 1.9.

Developer API Credentials

- Sign up for a [USPS Web Tools API account](#)
- Once the form is completed and submitted, a confirmation email will be sent to the USPS registered account email address containing the necessary username and password.

Setup FedEx API Connection

- Log into the Magento admin interface, <https://magento.example.com/admin>
- Go to System -> Configuration and click on **Shipping Methods**.
- Click **USPS** to expand the settings panel.
 1. User ID:
 2. Password:
 3. Mode: **Live**
- Click **Save** to apply the settings.

Once the production API connection has been setup, all orders will now have the shipping options provided by FedEx.
