Target version:	*nix	Spent time:	0.50 hour
Description			
<p>This is a simple method to add a line to the top of a file using sed. I've found it a simple alternative to editing a file for a trivial task.</p> <ul style="list-style-type: none">• Use sed to add a line to the top of a file: <pre>sed -i '1s/^/some\ basic\ text\n/' ~/example.txt</pre>
