GNU/Linux Administration - Feature #926

Enable Offline Browsing in Chrome

03/16/2018 09:14 PM - Daniel Curtis

Status:	Closed		**Start date:**	03/18/2018
Priority:	Normal		**Due date:**	
Assignee:	Daniel Curtis		**% Done:**	100%
Category:	Workstation		**Estimated time:**	0.10 hour
Target version:	*nix		**Spent time:**	0.50 hour

Description

Sometimes I am not online, but would like to continue viewing the contents of a webpage while offline. Chrome has a feature that stores a cached copy of the content to browse offline, but needs to be enabled.

Enable Show Saved Copy

- Open Chrome and in the URL bar enter chrome://flags/#show-saved-copy

- From the drop-down menu select Enable: Primary.

- Restart Chrome to apply the setting.
