<b>Description</b>			
<p>I have an old cheap Linksys WVC54GCA that allows for remote viewing, however recent browsers have had occasional problems with rendering the video on the web frontend for the camera. So this is a simple guide outlining the various ways to connect to a Linksys WVC54GCA IP camera.</p>			
<p><b>NOTE:</b> This example will use <b>10.0.0.5</b> for the cameras IP address. <u>Change it accordingly.</u></p>
