Description

Favicons are simple images that are displayed in web browser tabs. This is a simple guide on how to create them using ImageMagick.

- JPG to ICO

```
convert -resize x16 -gravity center -crop 16x16+0+0 input.jpg -transparent white -colors 256 favicon.ico
```

- GIF or PNG to ICO

```
convert -resize x16 -gravity center -crop 16x16+0+0 input.png -background transparent -flatten favicon.ico
```
