Category:	Errors	Estimated time:	0.50 hour
Target version:	Windows 7	Spent time:	1.00 hour
Description			
<p>I came across an error with Outlook 2010 that I could only find by checking the log files. This is how I turned on logging in Outlook 2010 on Windows 7.</p> <ol style="list-style-type: none">1. Open Outlook and go to <u>File -> Options -> Advanced</u> and check Enable troubleshooting logging to enable logging.2. Close Outlook and then open it again. <ul style="list-style-type: none">• Open a file manager and go to <u>C:\Users\Bob\AppData\Local\Temp\Outlook Logging</u>
